BERNINA

Beth's creative stitchery

August/September/October 2008

Sew . . . the sewing world "rocked" a few weeks ago with the preview of the new Bernina 830 Series machine! Finally, the lips are unzipped! All Bernina employees signed confidentiality agreements and kept a huge secret for six long years as this incredible machine was under development. Meanwhile, we were left to wonder what the future Bernina would bring.

We made lots of guesses about what should be; there was much "wishful thinking" as to what we wanted it to be! On July 17, all our dreams came true with the most exciting Bernina launch we've ever seen! Like child on Christmas Eve, I am chomping-at-the-bit to get my hands on this machine and have even made a pre-mature attempt at cleaning my sewing room! Alas, like everyone else, I must abide by the following sayings:

- Patience is a virtue.
- Good things come to those who wait!

In a few weeks, in Switzerland, I'll get to sew on the 830, see the production line and mingle with the developers. Can you tell I'm excited?! Please join me, on September 6, as we have our first preview party.

BERNINA News

BERNINA SERIES 830 - THE EMBROIDERY EDITION

Well, the news is out and it is BIG! This machine has everything you have ever wanted in a sewing machine. To find out more, go to www.berninausa.com or www.bernina8series.com and see for yourself. I could write about it, but, seeing is believing. The only bad news...it will not be available until November and I know we will have a waiting list that could last in to spring 2009. We are taking deposits now, first come, first serve.

BERNINA SERIES 820 - THE QUILTERS EDITION

The mid-arm machine many quilters have been waiting for. The 820 will have almost all of the "features" of the 830, except NO embroidery. The touch screen is "smaller" (in relationship to the 830 and relative to the size of the 630/640 screen). In true Bernina fashion, these "sub" level machines are general released one year after the major release. But, in their wisdom, Bernina decided not to make you wait! Thank-you Bernina!! It will not be released until January 2009. Wouldn't that make a GREAT Christmas present!

MY LABEL

We all love this program. I have personally made 3 pairs of pants! Later this fall, 2 new pattern modules will be available. We currently have no information about the contents, but are looking forward to more styles. Don't forget to look for Nancy Bednar's Variation on a Theme articles in the Through The Needle magazine. Or go to www.berninamylabel.com and look under "Sewing Studio" and then "On-line Classes".

ARTISTA 200 - 32mg to 64mg UPGRADE

The FREE circuit board upgrade from 32mg to 64mg will expire at the end of December. This is not the BSR upgrade. Replacement is by appointment only. No appointment will be taken after Dec 1st.

NEW FEET

Foot #36C and #36 (clear Pearls and Piping foot) Classic line only.
Foot #43 (Free-motion Couching foot) Gamma/Kappa machines - post 1997.
Foot #39C (Clear Embroidery Foot) Gamma/Kappa machines - post 1997.
